

The People's Column

System is demanded of all things that function with any degree of regularity. Today the world is functioning beyond the dreams of even the greatest visionaries of a century or so ago. It is moving systematically. It knows more of law and order.

The laws that make it function are not the laws that keep legislatures, congresses and parliaments in session.

There are certain fundamental laws, beyond the original conception of man, that keep the world more nearly in order.

These laws did not come from the brains of men, neither the individual nor mighty conclaves. They came from a Supreme Being. They have been fostered by an organization.

The church is this organization that has kept alive and spread abroad the laws by men which grow daily near the universal peace. The laws of God, as revealed in the Bible, are the law.

Civilization has accepted them as the law, and through them civilization is kept alive.

Yet great as is the law, laid down by the Bible, it was not accepted automatically by the world. It was carried abroad to the world, explained to the world, urged upon the world, and peace is coming thereby. The church has done this work. By acceptance of the law, Bryan and its people are secure in the possession of their goods. Through the functioning of the law, Bryan and its people may enjoy the labor of living beyond the Utopian dreams of those who centuries ago fostered the law.

Nor has the church ceased its labor in taking the law to all the people. That is its function in life, the teaching of the law.

Health and wealth, peace and security, ease and happiness are products of the law available to all men. The church has helped to bring this to all men. It is bringing it to Bryan today.

Are you helping the church in this work? Or you backing off gun-shy because the preachers of the gospel as a general rule supported the Republican ticket?

Are you a part of the body that makes the law a living thing? Or are you going to hold bitterness in your heart?

You have enjoyed the results in the past—you will continue to enjoy the results in the future—the church has made the nation and the world worth while—now is no time to desert them, because of politics.

Go to Sunday School and church Sunday.

ABOUT BRYAN

Mrs. Dupree Fountain and children returned today from Houston, where she has been for the past week with her husband who has been so very ill at a hospital there. It is gratifying news to the many friends of Mr. Fountain to know that he has passed the danger line and is now convalescing rapidly.

Prof. W. L. Hughes of A. and M. College and president of the State Teachers Association, has issued to his friends in Bryan and College invitations to attend the golden anniversary convention of the Texas State Teachers' Association at San Antonio, Nov. 29, 30 and Dec. 1. The program arranged for the occasion has outstanding teachers and educators as speakers.

Texas Fee System Unconstitutional

(By Associated Press)
AUSTIN, Nov. 7.—The Texas fee system of paying justices of the peace from fines and costs they collect was declared unconstitutional today by the court of criminal appeals.

Marion County Raise Fund For Fair Building

JEFFERSON, Nov. 7.—A campaign to raise \$5,000 for the erection of permanent Marion county fair buildings to general farm exhibits and livestock has been started here.

Members of the fair committee supervising the campaign are: J. M. Deware, H. A. Spellings, L. G. Braden, A. G. Schuster, J. B. Benfield, Whitfield Henderson and H. H. Sedberry.

If a few drops of olive oil are added to the water when washing chamois leather gloves they will not become hard or stiff.

COTTON MARKET

Cotton futures closed 20 points down today, local spots quoted at 17.25 to 17.75.

HOOVER WINS TEXAS

New York State Goes To Hoover

Only Eight States Seem to be in the Smith Column With a Total Electoral Vote of 87; Hoover Carries Rest With an Electoral Vote of Approximately 444

(By Associated Press)

NEW YORK, Nov. 7.—Herbert Hoover's margin of victory over Governor Smith in New York was approximately 110,000. Franklin Roosevelt, however, was leading Albert Ottinger for Governor by more than 58,000.

Hoover Acknowledges Al's Telegram

PALO ALTO, Cal., Nov. 7.—President-Elect Hoover today sent the following response to a telegram sent him by Governor Smith: "I am in receipt of your kind telegram and I deeply appreciate both the spirit of it and your good wishes for the future."

Hoover-Curtis Ticket Sweeps Nation

The tremendous Republican sweeping vote, from coast to coast which was enveloping the border states and driving a wedge into the solid south, still was piling up majorities for Herbert Hoover today, as returns told expanding details of the story of yesterday's election. As figures stood this morning with many votes still to be counted, about four-fifths of the states carrying nearly the same proportion of electoral college votes, had either topped into the Republican column or were showing substantial evidence of doing so. Pyramiding majorities today were disclosing the full measure in which Hoover swept yesterday's election. With substantial bloc returns tabulated of every state, the Republican national ticket was leading in forty states, casting a collective total of 444 electoral votes. Eight states held by Smith were Alabama, Arkansas, Georgia, Louisiana, Mississippi, South Carolina, Massachusetts and Rhode Island, having among them 87 electoral votes. State majorities established in these two groups were with few exceptions steadily growing, as Massachusetts in the Smith group. However, Texas and North Carolina, which were in the Hoover group, continued to swing near an even division with many votes still to be counted. Returns from Congressional elections were also far from complete but it was apparent that the swing to Hoover had also carried into office increased majorities in both Senate and House.

The \$4,000 bond issue for Templeman school district No. 1, was purchased by the State Department yesterday. The buildings embracing this bond issue are now completed and ready for occupancy, according to County Superintendent D. J. McDonald.

G. T. Bludworth, state inspector for the Rosenwald fund, will be in Bryan this week to make final inspection of the colored school in that district, preparatory to their paying of \$500 on this school. The Templeman district embraces the region this side of the river on the Navasota road.

FIRE RECORD IN BRYAN TO COST NEARLY \$40,000

FIRE RECORD AGAINST CITY WILL AMOUNT TO SMALL FORTUNE

Fire prevention as discussed by the last weekly meeting of the Bryan and Brazos County Chamber of Commerce is a subject that should not be treated with passing comment by the general public. When the thought that fully 75 per cent of all fires can be traced to pure negligence is uncovered, it is something to give a serious thought.

Fire is the worst demon to the civilized people. It makes thousands upon thousands homeless each year and lays to waste the savings of a life time. Unnecessary fire cost Bryan alone this year upward of \$12,000, due to a bad fire record, which amount is added to every insurance policy that is issued in the city. The city has a 15 per cent bad fire record. This same cost will be assessed next season due to the large loss of the Lawrence cotton warehouse.

The credit or bad fire record (Continued on page 4)

Pecans on Display At Howell Fair From Brazos Farm

Among the many interesting exhibits at the Howell Lumber Company Fair was a display of paper shell pecans grown on the Chambers-Wilson farm five miles west of Bryan. The paper shell buds were put on native trees last year, and quite a number of the several varieties began bearing nuts this year, conclusive evidence that you don't have to wait a lifetime to get returns from top-worked trees.

The Chambers-Wilson farm has several hundred native trees which have been top-worked in addition to nursery stock set out.

Boy Scouts To Hold Meeting

The local chapter of Boy Scouts will meet at the Episcopal parish house, Thursday night from 7:30 to 8:30. Every scout member is earnestly requested to be present and be able to take his test, and pay the regular dues.

District One School Bonds Bought by State

The \$4,000 bond issue for Templeman school district No. 1, was purchased by the State Department yesterday. The buildings embracing this bond issue are now completed and ready for occupancy, according to County Superintendent D. J. McDonald.

G. T. Bludworth, state inspector for the Rosenwald fund, will be in Bryan this week to make final inspection of the colored school in that district, preparatory to their paying of \$500 on this school. The Templeman district embraces the region this side of the river on the Navasota road.

Bryan Citizen in Houston Collision

Marshall E. Danaby and wife of this city who several days ago drove to Houston in their car, were in a collision in that city yesterday. Mr. Danaby's car was damaged and very little damage was done to the other car.

Mr. Danaby suffered two broken ribs and his wife received medical attention.

Officer Shot Over Gambling

BIG SPRING, Nov. 7.—Constable W. M. Nichols was shot in the abdomen and Bunk Harris was shot in the lung and left arm, in a shooting affray at Forsan, near here last night in which three officers participated. Officers said Nichols yesterday raided an alleged gambling game and that Harris was arrested and fined on charges of gaming.

Five in One Family Work as Oil Drillers

BIG LAKE, Nov. 7.—All records for the number of brothers employed as oil well drillers is believed to have been broken by the Shaffer family of Embleton, Pa., five of whom engage in the task of bringing in wells.

Three of the family, R. E. and William of Big Lake and Roy Shaffer of Brownwood, are employed in West Texas fields. Another brother soon is to join this quartet.

HIS VICTORY BREAKS "SOLID SOUTH"

PRESIDENT-ELECT HERBERT HOOVER whose decisive victory throughout the nation at the polls Tuesday sets a precedent that will probably outrank any during the history of the United States. He has swept the country from east to west and from north to south, as has no other man.

Baptist Women Meet on Campus Of Parsonage

The Baptist Ladies' Auxiliary on the campus met at the parsonage Monday afternoon at three o'clock. Mrs. Walter Lloyd opened the meeting with a short devotional, and afterward Mrs. R. L. Brown brought a most inspiring message in the form of the regular Bible lesson which she has been teaching for the past year. And from week to week interest has increased in this course she has so capably given.

The Auxiliary enjoyed as visitors for the afternoon, Mrs. Cook from Heights Baptist church in Houston, and Mrs. Hershberger from LaPorte Baptist church, who were on the campus to be with their sons who have been seriously ill for the past few days. Both of these ladies joined in the discussion following the lesson and left many helpful and spiritual thoughts in the minds and hearts of all. Those present were: Mesdames Walter Lloyd, M. K. Thornton Jr., Shows, H. T. Holland, H. Ness, Ray Flagg, Halcolm, Morehead, Cook, Hershberger, R. L. Brown and V. A. Little.

Ventura Charged With Arson by Fire Marshall

Deputy State Fire Marshall J. T. Justiss has filed charges of arson against George Ventura, one of the owners of the Chicago Cafeteria, in connection with the recent fire in the Chicago Cafeteria recently. Ventura was placed under a \$500 bond and his examining trial will be held Monday, Nov. 12 in Justice Court.

Les Akers Says That Farmers Are POLITICAL PREACHERS WORKING HARD Sure of Getting "Political Relief"

(By Les Akers of East Texas)
Yes Sir, the political firework display will soon be over and then everybody, including we farmers, will have some political "relief" whether we ever get any farm "relief" or not. After it is all over and us farmers get back to our plows and the lawyers to their offices and the politically inclined preachers to their pulpits and we all cool off a bit there will probably be a lot of regret in a good deal of hot headedness and false statements and foolish acts committed during the heat of the campaign and maybe will result in some unusual prayers for forgiveness for things that has hurt a heap and aint helped a bit.

Now, on this subject of political preachers. I think a few preachers who is maybe more political than religious has pulled their coats off and got in this President race and handled the truth mighty careless like in a lot of cases and has done harm to the church and the ministry and has caused a good many folks to think wrong and say hard things about preachers in general while it is a fact that the overwhelming majority of the preachers has stuck to their jobs of serving the church and trying to carry out the work of preachin' Jesus to a lost world, and deserves the praise and support of everybody.

Our banker, Will B. Wize, says that it is a pity some of these political stump speakin' preachers can't fight the devil and sin in their pulpits like they can Al Smith and Tammany and the Catholics on the stump. He says if they could and would they would soon capture the world for Christianity, but he says that them sort of preachers is the kind that as a rule preaches from their pulpits about as follows: "Brethren and Sisters, unless you repent, in a measure and be converted, as it were, you will, I regret to say, be damned, to some extent."

And this kind of feller is generally about as active and effective as the feller when the forestry agent was speakin' on the importance of timber and in the course of his speech said: "What has any of you done to save timber?" This feller spoke up and said: "I shot a wood-pecker once."

If they don't mind when the storm is over some of 'em who has deserted their churches for a taste of political pie will be in the fix of the feller where man rode up to a place and said: "Sonny is your daddy at home?" and the little boy replied, "No sir, he aint been here none since mama caught Santa Claus kissin' the cook." And I am thinkin' that the most of our Southern folks don't favor the preachers neglectin' the church and flirtn' around with the G. O. P. (Great Oil Party) or Graftin' Old Politicians as Roe Tate, my neighbor, would say, for as a general thing people hires a minister to furnish spiritual advice and guidance and not to direct them on how to vote.

Old Judge R. Knott Dumm says it is a pity the church leaders as a rule wont take as much active interest in puttin' a stop to graft and corrupshun and crookedness in government affairs at Washington and in puttin' the guilty in prison as they was in runnin' down and puttin' in jail that feller Carnes from Atlanta who is charged with stealin' nearly a million dollars in church money. He says he believes in honesty in government as well as honesty in churches. The old Judge says there aint no religion in politics and shouldn't be no politics in religion and he says the biggest joke in this campaign is the talk that the Catholics will rule this country if Smith is elected. He says they can't even run the governments where the great majority is Catholics much less in this country where only 20 per cent of the folks belong to that church, for he says they aint got no say at all in Italy and France has a Protestant president while Mexico has a president who is a Protestant and a Mason both.

I don't know much but have an idear that we ought to vote for folks on their all around qualifications to serve us not on their religious beliefs.

In the meantime in order to prove that we still have a sense of humor left let us laugh at ourselves once in a while.

Late Returns Give Majority of 11,058

Smith Carries Fourteenth Senatorial District by Substantial Majority; Bryan Goes for Democratic Nominee; Harry Wurzbach Seems to Have Won in Fourteenth District

DALLAS, Nov. 7.—Herbert Hoover today continued to increase his lead over Governor Smith in Texas and at 12:15 reports had been received from 234 of the 253 counties, 39 complete, giving Hoover 262,950 and Smith 251,892. Democratic nominees, however, increased their leads, winning in all instances but one, by decided majorities.

DALLAS, Nov. 7.—Returns at nine this morning from 216 of the 253 counties, including fourteen complete, increased Hoover's majority to 8,978 in Texas. The vote as tabulated by the Texas Election Bureau, gave Hoover 244,354 and Smith 235,376.

Seventeen Congressmen Assured Election

DALLAS, Nov. 7.—Seventeen Democratic Texas Congressmen today had been assured election while a seesaw race in the Fourteenth District continued. In this district, Harry Wurzbach, Republican, had the lead of 184 over August McCloskey, Democrat, this morning.

Bryan Stays in Democratic Column

From the early returns received from various Texas counties it seems as if Brazos county will be among the few counties that will give the Democratic ticket a majority. This majority seems to be the largest of any other county in the state, approximately going by a 2 to 1 count. Bryan proper gave the Democratic nominee a little better than a 3 to 1 majority. In addition to this the 14th Senatorial District of which this county is a member went Democratic by about the same ratio as the county. In regard to this election, Senator-Elect Gainer, in charge of Democratic affairs in the county, stated this morning that he wished to thank all speakers, all precinct chairmen and all who assisted in any way in this great victory. Through them, Mr. Gainer claims, goes the credit for the great showing given the Southern party. The Brazos county vote by precincts for the presidential race is as follows:

	Smith	Hoover
Precinct 1, Millican	28	34
Precinct 2, Wellborn	50	13
Precinct 3, College	169	125
Precinct 4, Steele's Store	40	2
Precinct 5, Harvey	19	52
Precinct 6, Kurten	81	7
Precinct 7, Tabor	28	14
Precinct 8, Edge	72	35
Precinct 9, Smetana	109	10
Precinct 10, City Hall	383	114
Precinct 11, Court House	166	150
Precinct 12, Reliance	26	2
Precinct 13, Allen Farm	8	1
Precinct 14, Fire Station	303	180
TOTAL	1,482	739

From figures compiled from the three city wards, it seems as if there are a total of about 300 Hoovercrats in these wards. These figures were taken by deducting the number of regular Republican votes for Governor.

All amendments were carried in Brazos county.

Bryan to Observe Armistice Day Sunday, Nov. 11

At a meeting of the Retail Merchants' Association Tuesday afternoon to discuss whether they would observe Armistice Day on Monday, Nov. 12, a majority of those present favored observing the day on Sunday, Nov. 11, and not closing the stores on Monday. This is a day of memorial services and this year falls on Sunday, a day very appropriate for the proper observance for which the day was set apart.

Lloyd Byrnes Gets Death Sentence

AUTIN, Nov. 7.—Death sentence imposed on Floyd Byrnes of San Angelo for the killing of Myrna Juergen, age 12, who was slain with a hatchet, along with her mother and Mrs. Rosa Schirra, was affirmed today by the court of civil appeals.

Mount Etna on Big Rampage

ROME, Nov. 6.—Fears that the lava flow from Mount Etna may cut the railroad line between Catania and Messina are voiced in a special dispatch from Catania to the Giornale D'Italia.

Details from the vicinity of the eruption describe the great flow of lava made up by the union of minor streams with the principal one, rolling through the Mortole one, rolling through the Mortole toward Mascali, twisting and burning all the trees and vegetation in its path.

BUDDIES TO HOLD MEET AT A. & M. C.

ARMISTICE MEMORIAL TO BE HELD IN GUION HALL SUNDAY MORNING

The Earle Graham Post, American Legion, is going to have an Armistice Day service at Guion Hall, College, on Nov. 11. The people of Bryan and College are cordially invited to take part in this service.

Everyone must be in their seats by 10:50 a. m. and at eleven o'clock all will rise and stand in silent prayer for two minutes, after which there will be a special musical program and a patriotic address by Col. C. C. Todd. Major J. E. Sloan will be master of ceremonies.

There will be a special place reserved for veterans of all wars and it is hoped that a large number of these will be present.

FORT WORTH VISITORS HERE

Mr. and Mrs. Price Hunnicutt and two children of Fort Worth, are spending the week with Mr. and Mrs. James Ray. Everyone in Bryan will remember Mrs. Hunnicutt as Lillie Belle Ray. They made it in to Bryan yesterday morning amid the mud and water and report the roads are somewhat worse than the roads around Fort Worth. Sunday, Mr. and Mrs. Hunnicutt and Mr. and Mrs. Ray plan to journey to Lufkin where they expect to spend Nov. 11 with Rev. and Mrs. J. J. Ray.

WEATHER REPORT

(Special to The Eagle)
NEW ORLEANS, Nov. 7.—For Bryan and vicinity: Tonight and Thursday partly cloudy.

BRAZOS COUNTY

Boys' And Girls' Club Department

Club Notes and Farm News by County Agent C. L. Beason and Home Demonstration Agent Lucy Givens

Clubs Take Many Premiums

Among other things brought out at the Howell Lumber Company Fair, the most educational one yet held, was that club boys and girls took a goodly portion of all premiums. One club boy took first place on yellow corn; another took first prize on R. I. Reds, and still another won first place on White Leghorns. Perhaps the largest and most attentive crowd was that which listened to M. R. Bentley, terracing specialist of the Extension Service, while he told of the dramatic toll soil washing is making on our farms, citing as evidence, the experiments carried on at Spur where more than 40 tons of soil is being washed away by a 27 inch rainfall and on a slope of only 8 inches to the hundred. Mr. Bentley's chart showed that terracing and rotation of crops will help to prevent this great loss.

Terracing School Dec. 6

It is hoped that every farm level in the county will be brought to the terracing school to be held Thursday, Dec. 6, at 2 p. m. It is hoped that every member of the council will be present, since there has not been a full attendance in several months. After the council meeting club members will practice on the club play or pageant. Be on hand.

4-H County Council Meets

Regular meeting of the 4-H county council will be held Saturday, Nov. 10, at 2 p. m. It is hoped that every member of the council will be present, since there has not been a full attendance in several months. After the council meeting club members will practice on the club play or pageant. Be on hand.

Waterproofing Shoes

Following is the government formula for waterproofing shoes: Tallow, 12 ounces; cod liver oil, 4 ounces. Apply mixture warm, but not hot, being careful to keep rubber heels out of mixture.

Lawrence Cotropia First

Lawrence Cotropia is first to send in enrollment card from Steele's Store. His project will be cotton. Here's hoping he will be as successful as his brother, Joe, or more so. Let's have at least two bales, Lawrence, on that club acre next year.

Elmer Murray Picks Pigs

Elmer Murray of Steep Hollow, will have livestock for his club work next year, taking a Poland China gilt for a brood sow. The county agent will send Elmer the story of three pigs, Dick, Tom and Harry, in order that the best pig possible may be developed.

Hoover Praises Club Work

To the Farm Boys of the South: I am glad of the fine record the farm boys of the South are making, and I am glad Mr. Poe has given me this chance to congratulate you and wish you good fortune. Farm boys today are more fortunate than when I was a boy on an Iowa farm. You have better schools and a lot of help from the agricultural colleges. You have good farm papers to read, and then such organizations as the farm boys' club work and the Boy Scouts are a great help in a practical way. I would urge you to make the most of all these modern opportunities. For the time is past when

farmers who do not use their heads as well as hands can expect success.—Herbert Hoover, in Progressive Farmer.

Club Exhibits Better

The most pleasing comment heard by the home agent, at the Howell Lumber Company Fair was that the exhibits were of better quality than usual. Girls' club exhibits, dresses, household linens, and the culinary exhibit showed marked improvement. There was a 60 per cent increase over last year in number of club girls who exhibited 4-H products. There were 141 club girl exhibits and 69 of these were displayed by first-year girls.

Home Made Soap Good

The home made soap exhibits were unusually good according to Miss Bess Edwards, the judge. Mrs. Minnie Elliott of Tabor won first prize and Mrs. C. N. Shealy of Reliance, second.

Why For Placings?

Perhaps the most helpful feature of the fair, day program was "Why for Placings." For the girls and women's department Miss Janina Sprout pointed out both the good and not so good in various exhibits. Those who heard these explanations will keep these things in mind when preparing exhibits for next year and thus improve the quality.

Mrs. Claytor Spoke

The educational booth featuring the model farm home and its opposite was one of the most popular exhibits at the fair last Saturday. Mrs. Bernice Claytor, the home improvement specialist, spoke on "Yard Improvement" using this exhibit as an illustration. She pointed out the beauty of the spacious unbroken lawn and the lack of art in the yard cut up by fancy shaped flower beds. She stressed border plantings about the house since they "tie the house to the ground" and give it the home like appearance. The prominence of the barn and out houses of the poorly planned home was contrasted with these buildings placed to the back and screened from plain view by trees and shrubs in the well planned one.

Local Legion Post To Hold Banquet

The American Legion post of Bryan is planning for a big banquet and social gathering to be held on the night of Friday, November 23rd. This will be a delightful affair, and committees are at work on plans and program for its success. The banquet will be served by the Friendship Bible Class of the First Baptist Church.

HERE TO ATTEND FUNERAL SERVICES OF W. D. STALLINGS OF ALEXANDRIA COMMUNITY

Among those here to attend the funeral services of W. D. Stallings of Reliance were: Mr. and Mrs. W. C. Vanderwerth of Waco, Mr. and Mrs. W. T. Stallings of Dallas, Mr. and Mrs. R. L. Stallings of Houston, Mr. and Mrs. Arch Stallings of Houston, Mrs. H. H. Benke of Kenedy, and Mrs. J. H. Stallings of Green Cove Springs, Fla. The only two of the sons absent were Mr. and Mrs. Jack Stallings of Houston and J. H. Stallings of Green Cove Springs, Fla.

SOIL EROSION DISCUSSED BY LIONS' CLUB

FULLER AND JACKSON HEAD THE WEEKLY MEETING OF LIONS

The Lions Club program for Tuesday's luncheon was in charge of Lion F. D. Fuller who presented A. D. Jackson, secretary of the Brazos River Conservation and Reclamation Association. Mr. Jackson gave the first of a series of talks which he and others will deliver before the club on the harnessing of the Brazos river and soil erosion and water conservation.

Mr. Jackson reviewed the results obtained thus far by the Brazos River Conservation and Reclamation Association and related some of the things the association expects to undertake in the future. The high point of Mr. Jackson's talk was with reference to soil erosion and water conservation, relating results obtained by the Spur station of the Texas Agricultural Experiment Station. The experiments conducted at the Spur station are unparalleled anywhere in the United States, said Mr. Jackson. The Texas Agricultural Experiment Station authorities are endeavoring to have Congress make an appropriation sufficient to have similar experiments conducted in various parts of the United States.

Following Mr. Jackson's talk motion was made by Lion W. S. Howell that the Bryan Lions Club go on record as endorsing the movement outlined, and that a committee be appointed to draft suitable resolutions and copies to be sent to each Lions Club in Texas and each district governor in Lionism. President Locke appointed on this committee, F. S. Howell, chairman; W. D. Fuller, J. E. Blair, and J. Bryan Miller. The committee is already working and letters and copies of the resolutions will go out at once.

Lion A. F. Ainsworth was on the program for a five minute classification talk. Rev. Ainsworth's talk was not exactly a sermon but was indeed interesting and enjoyable.

Chairman Erskine concluded the reading of the tentative ten-year program. After additions and changes are made as have been suggested throughout the reading of the program, it will be presented for final adoption at next Tuesday's meeting.

Lion M. M. Erskine had as his guest, Guy W. Cheeseman of Beaumont, manager of the Gulf Coast Roofing Company.

Those present were: John E. Blair, E. R. Bryant, Harry S. Edge, A. F. Ainsworth, W. E. Neely, J. A. Clutter, S. D. Snyder, Clarence L. Curlee, M. Schulman, Bill Wimberly, Noah W. Dansby, M. M. Erskine, Guy W. Cheeseman, J. Coulter Smith, Ross M. Sherwood, W. S. Howell, H. H. Young, J. Bryan Miller, J. E. Hensarling, A. D. Jackson, F. D. Fuller, Henry Locke, Mrs. Roy Danforth, R. C. Franks.

Tabor Notes

Basket Ball Games

On Friday evening Prof. Wilson, principal of Wheelock, accompanied the senior and junior boys and girls to Tabor and played the first games of the season. Some very good team work was displayed on both sides. But Tabor proved her superiority by winning three out of the four games played, losing only to the junior girls. Mr. Wilson, Mr. Pate and Miss Walker coached the games.

Play Given by High School

Diamonds and Hearts, a four-act play, was presented by the high school pupils at the auditorium Saturday night. The play was a great success in the presence of a large crowd, and a neat little sum was obtained which will be used for the school's advantage.

The cast of characters were: Estelle Armstrong Amy Halstead, Jane Rudasill Inez Gray, Aline McWhorter Mrs. Halstead, Eula Henry Hannah Barnes, Velma Holiday Dwight Bradley, Oscar Wilson Dr. Burton, Ezra Wilson Sammy Woodrow Walker Abraham Barnes, Frankie Nichols Sheriff, Henry Schram Director, Mr. Pate

OATS IN BRAZOS COUNTY MAKE GOOD GRAZING

Brazos county farmers who sowed oats in the early fall in the cotton middles are already reaping the harvest by having good grazing for their stock. It is estimated that these oats will more than pay for the sowing in preventing soil washing away.

The average American eats about four pounds of cheese in a year; the average Dane consumes thirteen pounds and the Swiss twenty-three pounds.

Repression, someone has said, is a capital method of expression; it is the steam in the cylinder that turns the wheels, not that which is blown from the whistle.

A man is known by the company he keeps, and a company is known by the men it keeps.

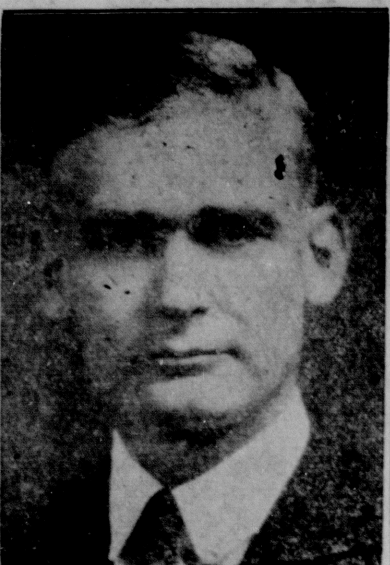

The best of city life can be brought to the country; the best of country life never can be transplanted to the city.

Bryan Red Cross Elects Wilson As Chairman

D. L. Wilson, prominent business man of Bryan, has been appointed chairman for Brazos county of the Annual Roll Call of the American Red Cross for the year 1928-29, and has accepted the appointment.

Mr. Wilson asks the co-operation of the people of this county in making the annual roll call what it should be. He plans to conduct an active campaign for members in this great humanitarian organization from Armistice Day, Nov. 11th, to Thanksgiving Day, Nov. 29th.

The Twelfth Annual Roll Call of the American Red Cross assumes extraordinary interest this year because of the enormous burden placed upon the organization

D. L. WILSON

by the recent hurricane in Porto Rico and Florida. The Red Cross met that emergency so promptly and so fully demonstrated its indispensable place in American life, as to merit the grateful support of all people everywhere.

The American Red Cross is the only organization designated by the Congress and recognized by the United States government as an agency to give relief in time of disaster. The President of the United States is the President of the Red Cross. And the Red Cross accounts are audited annually by the War Department and submitted to Congress.

Annual membership in the Red Cross is \$1 and every loyal and patriotic citizen will want his name on the list. Fifty cents of the dollar goes to headquarters at Washington, D. C., to make possible the emergency funds for relief in times of flood, fire, epidemics, and bring quick relief to the needy and suffering; the other fifty cents of the dollar stays in the Brazos County Red Cross treasury to help our disabled ex-service men and their dependents in the battle of life here at home in times of their dire need.

Brazos County Red Cross was organized in 1917 and has served continuously since that time, doing a great work, and taking a helpful place in our community life. Since the close of active war work, all local Red Cross workers have given volunteer service and the money put into the local treasury by the annual roll call dues has been used exclusively for emergency aid to disabled ex-service men and their dependents, and in such worthy and pressing calls for help.

Your membership dollar will insure you that you are helping in this great humanitarian work. Join when you are given the opportunity, Nov. 11th to Nov. 29th.

Mrs. Edge Elected U. D. C. Treasurer

Mrs. J. B. Stevenson, who has served as treasurer for L. S. Ross chapter, United Daughters of the Confederacy in this city since 1916, has resigned that position to the regret of every member of the chapter. For twelve years Mrs. Stevenson has faithfully and efficiently attended to the finances of the local chapter and at all times given the work a patriotic and loyal service. She was re-elected for another year at the beginning of the term in October, 1928, but on account of other duties which will interfere she finds that she must resign at this time. The thanks and appreciation of the entire chapter is given to Mrs. Stevenson as she retires from the office at her own request, however she has promised to continue to be as loyal and faithful to the U. D. C. and its local chapter work as she has ever been, even if not its treasurer.

Mrs. V. B. Edge has been unanimously elected to fill Mrs. Stevenson's place as treasurer of L. S. Ross chapter and has entered upon her duties in that capacity.

Former Bryanite Visiting Friends

James O. Thomas of Fort Worth spent the day in Bryan visiting his many boyhood friends. He was a guest in the home of his cousins, Mr. and Mrs. V. B. Edge during his visit. Jim Thomas, as his Bryan friends love to call him, is one of Bryan's own boys, and his visits to the "old home town" are occasions of pleasure to all who know him. His many friends will be glad to know that he is now a traveling salesman for a big wholesale shoe house and is in fine health.

Aged Citizen Dies Here at Daughter's Home

At the home of his daughter, Mrs. M. F. Vitopil, where he has lived for the past twenty years, Peter Chmelsky, aged 87 years, 4 months and 7 days, died Tuesday morning, Nov. 6, at 4 o'clock after an illness of about two weeks.

The deceased was born in Poland in 1841, and when a young man came to the United States and has been a resident of Bryan and Brazos county for more than half a century, having lived here continuously since 1870, 58 years.

Funeral services will be held from the home of Mr. and Mrs. M. F. Vitopil on West 25th street Wednesday morning at 9:40 o'clock and from St. Joseph's Catholic church on East 26th Street at 10, Rev. J. B. Gliessner conducting the services. Interment will be made in Mount Calvary cemetery under direction of McCulloch-Dansby funeral directors of this city.

Two daughters and one son survive the deceased: Mrs. Andrew Lewis of Boskash, Okla., Mrs. Mat F. Vitopil of Bryan and L. F. Chmelsky of Houston.

Officials Attend Rural Meet at Tabor Wednesday

R. R. Lancaster, rural organizer of the Extension Service, and County Agent C. L. Beason, attended the conference of community workers at Tabor Wednesday night, called for the purpose of discussing plans of community progress for the future.

President Joe Locke appointed the following committees: Program, J. T. Closs Jr., Miss Mary Locke, Miss Maggie Benbow, R. F. Crenshaw, Walter Armstrong, agriculture, Walter Armstrong, Lynn Sample, John Barnes; educational, Sam Pate, Miss Bertha Walker, Will Presnal.

On Friday night, Nov. 9, the women of the community will put on a play. In December, the 4-H Club Council will put on a pageant to be followed by a picture show. The Tabor welfare club, under the leadership of president Joe Locke is trying to work out a long time constructive program, looking to the welfare of all community enterprises.

As we get more civilized we shall learn to assuage grief with beauty.

Mrs. L. B. Ethridge Of Reliance Dies At Family Home

Mrs. Lula Boggan Ethridge, wife of Robert L. Ethridge of the Reliance community, passed away at the family home in that community this Wednesday morning, Nov. 7, at an early hour, following an illness of only a few days with that dread disease, pneumonia.

A five-day-old infant girl baby is left without a mother and the bereaved husband and other children of the family have the sincere sympathy of all in their deep sorrow. Deceased was 44 years, 6 months and 24 days of age at the time of her death.

Funeral services for Mrs. Ethridge will be held Thursday morning, Nov. 8 at 10 o'clock at the Reliance church, and will be conducted by Rev. R. L. Brown, Baptist student pastor of A. and M. College. Interment will be made in Reliance cemetery under direction of Dansby Furniture Co., funeral directors of this city.

Besides the husband and infant daughter, the deceased is survived

by six sons and three daughters as follows: Lamar Ethridge of Bryan, Russell Ethridge, Mrs. Annie Laurie Jones, Miss Fronie Ethridge, Sam Ethridge, and Robert, Calvin, Harold and Selma Ethridge.

Edge Notes

EDGE, Nov. 7.—Well, folks, don't you think it's about time you're getting some news from Edge? Though we're away out in the edge of the country, we are going to let the rest of you know that we're still here and getting along fine.

A revival conducted by Reverends House and Thompson came to a close Oct. 27. A good crowd was in attendance at each of the meetings.

We have had our share of the political speakings. On the evening of the 24th of October Hon. W. C. Davis and other speakers spoke in behalf of Al Smith; while on Oct. 29, Messrs. Hollomon, Hollis and Pipkin brought out the other side of the story.

The Edge school has been progressing nicely, having this year the largest enrollment in the history of the school. Up till now 125 student have been enrolled and there will be more to come. It is indeed a heavy load for the four teachers to carry.

On Friday, Oct. 26, the senior and junior girls journeyed over to Wheelock to play them in basket ball. It having been the first time any of the junior girls had played in a match game, they lost to the strong Wheelock team, the score being 12-4. However, our senior girls showed wonderful skill at the game, and came out with a wide margin, the score being 49-7. The following is the line-up for the senior girls game.

Edge	Wheelock
Right Forward	Dunn
B. Moore (C)	Pecena
Left Forward	Lightsey
McDonald	Jump Center
Hill	Duncan
Side Center	Spiller (C)
Nash	Right Guard
Rumfield	Left Guard
Substitutions: H. Moore for McDonald, Martin for Hill, Payne for Rumfield, Mooney for Dunn, Baker for Pecena, Dyer for Duncan, Syptak for Spiller, Duncan for Cajka. Field goals: by Edge 22, by Wheelock 3. Fouls: by Edge 5 out of 10; by Wheelock 1 out of 8.	

Millican Notes

MILLICAN, Nov. 7.—I wonder how many are realizing their responsibilities today and how many will do the right thing for their country, putting selfish interests aside? I hope God will be the presiding judge on this the most crucial day in our country's history.

Mrs. Ben Moore has been confined to her bed and room for the past two weeks, the result of a fall. Her many friends hope she will soon be among them again.

The Baptist ladies are serving pie and coffee today, hoping to increase their fund for seating their church.

Mrs. E. C. Jameson spent last week with her parents, Mr. and Mrs. J. W. Burrows, while her husband was attending the school of terracing at Arlington.

We hear Mr. and Mrs. King Fugate are soon to be residents of Millican, having purchased the Fugate home recently occupied by Mr. and Mrs. Gotcher. The good part of it is, that we are not losing the Gotcher family either, they having moved to the J. Walter Smith home.

Mrs. Georgie Meekins of Navasota is visiting Mr. and Mrs. Fletcher Pool this week.

Carl Seeley and Mrs. Sam Dunlap returned from Houston where their father was ill and in a hospital in that city.

From Millican Sunday night to attend the Cimm services were seen Mr. and Mrs. J. Walter Smith, Mr. and Mrs. Gotcher and daughter.

ter, Lillian, Mr. and Mrs. L. L. Dickson, Miss Erin Simpson and J. E. Cory. Mrs. Ben Harrington is with her daughter, Mrs. Alvin Gregg, in Bryan for a few days. Mr. and Mrs. Francis and Miss Hettie Jackson of Brenham, spent Sunday in the home of Mr. and Mrs. Chas. Jackson at Clay farm. Mrs. Ella Dunlap is visiting her daughter, Mrs. C. B. Gray at Mart.

FIRE RECORD

(Continued from page 1)

charge against a city is based upon the percentage of loss that the city suffers against its total premiums, based on a period of the three years prior. When you take into consideration that Bryan has a 15 per cent bad fire record, which is given on an 85 per cent lossage, it is something to make the normal thinking citizen think the second time.

The law on the good and bad record as in the late edition of the Texas General Basis Schedule, is as follows: Loss ratio of 50 per cent and less than 55 per cent, 3 per cent credit. Loss ratio of 55 per cent and less than 60 per cent, 6 per cent credit. Loss ratio of 60 per cent and less than 65 per cent, 9 per cent credit. Loss ratio of 65 per cent and less than 70 per cent, 12 per cent credit. Loss ratio of 70 per cent and less than 75 per cent, 15 per cent credit.

If loss ratio over a three-year period next preceding is found to have been 65 per cent and over, then a charge will be made and promulgated in accordance with the following table: Loss ratio of 65 per cent and less than 70 per cent, 3 per cent charge. Loss ratio of 70 per cent and less than 75 per cent, 6 per cent charge. Loss ratio of 75 per cent and less than 80 per cent, 9 per cent charge. Loss ratio of 80 per cent and less than 85 per cent, 12 per cent charge. Loss ratio of 85 per cent and over, 15 per cent charge.

Both of these ratios above to be calculated on the final premium and amount shown in face of policy.

It will take fully another year, or 1930, before Bryan can overcome this bad record in any way and then possibly it will fall to a 12 per cent charge. All in all by hard work on the part of all citizens it will take five or six years to get the city back on an even

basis, and in that time it will have cost the citizens fully \$40,000. A fire does not mean only the other man's loss but a loss to every property owner in the city. Think of it—study it, and do all in your power to prevent further fires.

Young A. and M. Student Dies at College Hospital

Logan Varney, second year agricultural student at the A. and M. College of Texas, age 19 years, 8 months and 29 days, died at the College hospital, Sunday night, Nov. 4, at 8:45 o'clock after an illness of one week with pneumonia.

Mr. and Mrs. C. W. Varney, of Whitesboro, parents of the boy, were at his bedside during his illness and death. The body was shipped to the family home at Whitesboro, under direction of McCulloch-Dansby, funeral directors of Bryan, Monday, and was accompanied by the parents. Funeral services will be held Tuesday evening with interment made in the Whitesboro cemetery. The deceased is survived by his parents, one brother and three sisters.

Stallings, Brazos County Citizen Dies at Alexander

William Daniel Stallings, well known Brazos county citizen, died at his home in Alexandria community, 8 miles north of Bryan Sunday afternoon, Nov. 4, at 5:15 o'clock, after a brief illness. News of his death came as a shock to his many friends in Bryan and over Brazos county, as he had been in his usual health and about his business duties as usual.

Funeral services were held this Monday, afternoon at 3:30 o'clock at Alexander Methodist church, and were conducted by Rev. Jesse Thompson, Methodist student pastor of A. and M. College. Interment was made in the family burying lot in Alexander cemetery under direction of McCulloch-Dansby, funeral directors of Bryan.

Deceased is survived by his widow, Mrs. Emma Stallings, five sons, two daughters and two sisters to all of whom tender sympathy is extended in this their deep hour of bereavement and grief. Following pall bearers served at the funeral service of the deceased: Active, W. S. Higgs, J. Tom Smith, W. L. McCulloch, J. D. Martin, Ben Powers and J. N. Dunaway. Honorary pall bearers were: Dr. C. A. Searcy, George A. Adams, John Wilcox, Oscar Wilcox, W. R. Sanders and W. B. Roman.

Keifer Pears Make Good Eating After Few Weeks Waiting

County Agent C. L. Beason brought to the office today some Keifer pears grown on his place which were as mellow and sweet as eating pear as one would want. The Keifer pear, and quantities of them are found in Brazos county, are hard and only satisfactory for cooking, but with the simple process of wrapping them in paper and placing them away in a cool, dark place in a few weeks they ripen and become delicious eating pears. If there be any "doubting Thomases" try it for yourself.

Kurten

On Friday night a Hallowe'en carnival and box supper was held at Kurten high school auditorium. The room was decorated with orange and black and made an ideal setting for the Hallowe'en program, which was as follows:

Words of welcome, by second and third grades of the school. Reading, "Who's Afraid," by Mildred Plagen and Raymond Yeager. Recitation, Josephine Bukowski. "Exercise," Josephine Bukowski, Mildred Plagen, Milton Schultz, Harold Sabo. Recitation, Clara Cloud. "Ghost March," by grammar grades. Hallowe'en song, by high school students.

The box selling and contest voting began immediately after the close of the program. Miss Edewise Schultz won in the most popular girl contest. Wallace Sabo won in the bean guessing contest. Both were given boxes of candy as prizes.

Hot chocolate, cake, peanuts, pop corn and candy were sold "on the side." A negro doll stand furnished amusement for the crowd also and a good time was enjoyed by all present.

About \$65 was raised at this entertainment and will be used to put needed materials in the school rooms and on the school playground.

Farm Terracing Schools For Brazos

County Agent Beason is in receipt of the following letter from M. R. Bentley, terracing specialist of the Extension Service: "According to our conversation of a few days ago we are going to plan to be in your county to help with a terracing school on December 6."

A. K. (Dad) Short of the Federal Land Bank will also be present, and County Agent Beason advises that all county agents in near by counties will be invited to come and assist in this school the place to be announced later. All farmers in the county interested in learning how to use the farm level will be urged to attend.

Honor Roll for Bryan Public Schools For First Six Weeks Period Named And Show High Record Scholarship

The following students of the Bryan city schools have neither been absent or tardy and have made a general average of ninety or more during the first six weeks:

East Side Elementary

Low First Grade, Miss Odum, teacher: Robert H. Benbow, Della L. Gibbons, Frances Guynes, Olive Hensarling, Jaunita Krenk.

Low First Grade, Miss Porter, teacher: Travis Nelson, Thomas Newton, Jno. H. Parker, Dorothy Worsham.

Low Second Grade, Miss Clari-bell Carrington, teacher: Priscilla Andrews, Rouden Bond, Mayte Pauline Jones, Myrtle Lois Merka.

Low Second Grade, Miss Dearing, teacher: Mary Alice Reese, Emma Louise Smith, Lee Smith, Norman Snapp, Mary Alice Wed-dington, Pauline Palermo, Mary Alice Plumb, Maurice Searcy, Imogene Webb, Jo Anne McCulloch.

Low Third Grade, Miss Moran, teacher: Jane Gray, Rosemary Knobel, Marcell Martin, Robert Nelson, Geraldine Winter.

Low Third Grade, Miss Montgomery, teacher: Johnnie Berry, Ashton Birdsong, Billie Davis, Fred Gomez, Thomas Hall, Walter Holden, Bryan Krenk, Lucille Gibson, Billie L. Guynes, Lucille E. George, Ula May Cash, Betty Brewer, Minnie Delle Carnes.

High Third Grade, Miss Eden, teacher: Lester Leonard, Billie Patterson.

Low Fourth Grade, Miss Eden, teacher: Goldie Simpson, Bill Moore, Florine Carrington, Louise Cook.

Low Fourth Grade, Miss Pipkin, teacher: Nat Allen Jr., Emogene Ballerstedt, Margarette Beard, Francis Darnell, John Edge, Bobbie Hearne, Bernice Kraft, Hazel Dawn Nunn, Inez Reese, Mary Ruth Smith, Robaline Smith, Peggy Stuart, Ana B. Thomas, Ruth Thurman, Harry Williams.

Low Fifth Grade, Miss Safronia Carrington, teacher: Walter Lee Porter, J. L. Reese, Ruth Wed-dington, Maurine Williamson.

Low Sixth Grade, Miss Griffin, teacher: Ruth Beale, Walton Holder, Georgia Belle Shaw, Jessie Thomas, Elizabeth Watts, Simmie Wheeler.

Low Seventh Grade, Mrs. Butler, teacher: Lawrence Parker, Margaret Beason, Dorothy Beard.

Bethany Heads Methodist Board

At the regular monthly meeting of the Board of Stewards of the First Methodist church, the last before conference, reports indicated that the church would meet all of its financial obligations. Plans were made for raising money this fall to meet all notes and interest on the recently purchased property known as the Castle lots. At the close of the meeting the board re-organized for next year's work and elected officers as follows: C. M. Bethany, chairman; Dr. Jno. W. Black, vice chairman; C. E. Jenkins, secretary; Jno. M. Lawrence, treasurer, having completed five years of service, asked that his office be given to some one else and W. K. Gibbs was unanimously elected.

To Begin New Office County Health Nurse

Work is soon to begin on renovating and refitting at the office of Miss Ella Bandelin, Brazos county public health nurse at the court house. The old dental chair and other equipment no longer used have been removed, so that the floor space can be more satisfactorily arranged. With floors refinished and new rugs the room will not only be more sanitary and convenient, but will present a more pleasing appearance.

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which you can get at 35c per bottle from Roman & Vick. (Adv.)

Hand of Progress for Brazos County Points to Farm Program Including Dairying, Poultry and Livestock Farms

(By NELL BENTLEY)

The East Texas Chamber of Commerce, through its agricultural committee and J. E. Stanford, its director of agricultural development and activity, recently made announcement of a conference to be held in Longview on November 8, to consider the matter of launching an annual dairy show for East Texas.

Invitations are being mailed to leading dairymen, county agents, dairy specialists with colleges, railroad agriculturalists, chamber of commerce representatives and others who might be interested in giving impetus and advancement to dairy development in this section of the state.

This is a commendable move in deed, and Brazos county should by all means be represented in this meeting, for if newspaper dispatches are any indication of industrial trends, the hand of progress plainly points toward a farm program including dairying, poultry production and livestock farming for our section of the state within the coming decade.

Coleman county has just completed the organization of its first bull circle, and has purchased a \$275 animal of Jersey breed with a record extending over three generations. Still more circles are to be organized and additional bulls imported in an effort to im-

prove the herds of that county for production.

Last summer, the Coleman Chamber of Commerce shipped in a car load of good grade cows which were distributed among the progressive farmers of the county, and also as a result of the activity of that organization a creamery and ice cream plant was established and put into operation. Coleman county farmers are awake to the possibilities in store for them through improved herds and economic production in the dairy line. It means a steady cash income as well as the acquiring of livestock with a definite and profitable sale value.

In September L. W. Lester, a farmer residing near Memphis, went to Greenville and purchased a car load of Jersey milk cows. Lester already had five good cows and wanted to increase his herd. He bought a car load of cows because this offered a better and more economical transaction and his neighbors were glad to buy the cows he did not need in his own herd. Milk cows are in demand in the vicinity of Memphis because of the impetus given to the industry there recently through the endorsement and encouragement of the Chamber of Commerce.

Waddell Bailey of Collinsworth county recently purchased

another car load of Jersey cattle, bringing his Jersey herd up to a total of 200 head of pure bred stock. This is the largest herd in that section of the Panhandle and Bailey makes two trips to Wellington every day with his dairy products, which afford him a continual income.

Bell county during the month of October held a series of meetings over the county to stimulate interest in dairy farming as it is being conducted in various sections of the country. Managers of successful dairy farms, creamery operators, cheese makers and educational workers familiar with breeding and selection theories addressed these meetings, the aim of which was to bring information and helpful suggestions to those Bell county farmers who have embarked in the dairy business on a venture and in hopes of establishing their business on a paying basis. There is evidence of a decided expansion in the dairy business there in the near future.

The cooperative creamery at Fredericksburg has been in operation something less than a year, yet it is registering a decided success as evidenced in its sales volume. Its products are being shipped to all parts of the state, and one city that receives 1,200 pounds of butter from there every week is asking for an additional 2,000 pounds per week. Cream production in the vicinity of Fredericksburg is increasing rapidly each month, and affords Gillespie county farmers a steady income. More than 150 local business men and farmers hold stock in this concern.

These items of information are only a few that come under our

observation as we read our exchange. All of them are quoted from the leading daily newspapers of Texas, and serve to illustrate that towns desiring favorable publicity have a 100 to 1 shot if a progressive farm program is being developed in their community. The day of spectacular stunts and inflated ego on the part of civic bodies to secure publicity has long since past, and achievement backed by concrete evidence in the form of success stories is all the style today.

Prosperity is after all the barometer of progress and success in agriculture today, even as the same statement is true in the business and professional world. Any section of the United States can be accurately judged for sound financial policies and social progress merely by paying a visit to representative farm homes in that section. We do not mean the homes of land owners, but the homes of the dirt farmers themselves. Would we be willing to have Brazos county judged by disinterested parties in this fashion?

OF INTEREST HERE

The Ex-Sudent Association of Texas A. and M. College will entertain the Mothers Club with a banquet at 7 p. m. Friday at the Baker Hotel. President T. O. Walton will be the honor guest. The mothers will form a reception committee on Saturday morning to meet the special trains of faculty members coming in for the S. M. -A. and M. game. This bit of news from Dallas will be read with interest in Bryan.

Airplaning Is a Popular Sport At Carlsbad

SAN ANTONIO, Nov. 6.—"Airplaning" is one of the chief sports of the Carlsbad State hospital, state institution for tuberculars 20 miles south of here.

It does not mean that the patients actually ride in planes but is the name for the custom of carrying on correspondence between members of the sexes. There is a rule that forbids the association of men and women patients but when one sees a girl he likes he learns her name, writes a letter and drops it in the local postoffice.

It is usual for each member of the affair to forward long letters to the other daily, one writing in the morning and the other answering in the afternoon.

The sport is harmless as patients have little physical contact other than a possible touch of the hand as they pass in the dining room where 500 dine.

MARGARET BEASON LEADS

Margaret Beason, daughter of County Agent and Mrs. C. L. Beason, led her room for highest record of scholarship in the seventh grade, and as a reward today Margaret's bank account is \$2 the richer, a gift of Secretary Sam E. Edwards, because he said it could not be done so Margaret had to show him. Margaret's grade for the first six weeks of school was 95 and 1-2.

CONSERVE THE SOIL

One of the most far reaching pieces of work the Texas Experiment Station of A. and M. College has ever undertaken has been the experiment at Spur station to halt land erosion and lessen loss of rainfall on farming areas thru water run-off. These experiments have shown that as much as forty tons of earth to the acre will run off in one season with a 27 inch rainfall, an unnecessary waste of the rich silt soil that carries away with it all the growth producing elements so necessary to larger crop yields.

And now, because of the unusual success of the station at Spur, the only one of its kind in these United States, Bryan and Brazos Chamber of Commerce recently adopted a resolution petitioning an appropriation by the Seventy-first Congress of \$300,000 to provide soil erosion and water run-off stations in the principal soil regions of the United States. Those who are fostering the petition and who are carrying the work on through the congress should have the whole-hearted support and approbation of every agricultural state in the union.

This is one of the most valuable measures ever put up to congress for the real and material assistance to farmers. And when a country gives material aid which helps the farmer to help himself, then that country has reached a moral plane that transcends that of manipulators and political buncombe.

A Madison county club boy has made an outstanding record in corn production, the yield showing more than 150 bushels on one acre. With this achievement he hopes to win the state record in corn production in Texas this year. There is a new Texas, but the boys on the farms, know how to grow corn. Their brains are developed and their hands are trained. Thanks to A. and M. College.

Many large cities have come to the fore in Texas in the past quarter of a century. A quarter of a century from this time there will be cities of 350,000 and 400,000 under Texas skies and the Lord only knows how many there will be that can boast of a population of 1,000,000 and perhaps 1,500,000 and 2,000,000. Who can say that Bryan's name will not be listed among the number.

One thing does not mean the same to all. For instance, the noon whistle to some means dinner, while to others it merely means 12 o'clock.

Now that Asa Keys has been indicted we wonder if Hickman had said the money of Leob and Leopold, would he have been given the death penalty, or what? Regardless of how horrible the crime it is sometimes funny what money will do.

Bryan Concern Issued Charter

In the list of charters granted by the Secretary of State in today's State papers is included the firm name of Joe Kaplan of this city. This concern has been in business in Bryan for some time. Ed Martin and wife only recently buying an interest in same. Mr. and Mrs. Martin returned to Bryan recently from Portland, Oregon, where he has been engaged in business for the past year or so. Mr. Martin is a brother of J. D. Martin, manager of the Parker-Astin Hardware Company of this city.

The new concern is incorporated for \$20,000 and the incorporators are Joe Kaplan, Ed Martin and Mrs. Phyllis Lyall Martin.

WHILE THEY LAST—5 1/2 ft. Cross Cut Saws only \$3.50. D. Mike.

666

is a Prescription for Colds, Grippe, Flu, Dengue, Bilious Fever and Malaria. It is the most speedy remedy known.

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of incalculable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borozene, the modern antiseptic. You can get Liquid Borozene in a size to fit your needs and purse, from Roman & Vick. (Adv.)

COTTON POINTS MAY INCLUDE TEXAS PORTS

GALVESTON AND HOUSTON MAY BE DESIGNATED IN LIST

NEW YORK, Nov. 3.—Members of the New York Cotton Exchange have been asked to meet Nov. 14 to vote on amendments to the by-laws providing for the establishment of Southern deliveries and limitation of contracts and the appointment of a control committee. The amendments are to be voted upon as a whole and, if approved, become effective at a date to be decided by the board of managers.

A committee of fifteen, headed by John B. McFadden, after months of study, has proposed that Norfolk, Charleston, Galveston, Houston and New Orleans be designated points at which cotton may be delivered, in addition to the present delivery at New York, under a new contract. Deduction of 35 points would be made from the invoice by the deliverer at points other than New York.

The proposed amendment on limitations authorizes the board of managers to prescribe a limit of interest in futures contracts on the exchange in any one month is composed entirely of hedges against the purchase or sale of spot, or cash, cotton.

The control committee, to be composed of three members of the exchange who are not managers, appointed annually, would have broad inquisitorial powers in determining the interests in any designated position of any clearing member or his customer. It would also have power to summon members, their books and records, and to order members to liquidate holdings of a client in excess of the permitted limit.

Corps to Make the Trip to Dallas to Aggie-S. M. U. Tilt

COLLEGE STATION, Nov. 3.—When the Texas Aggie gridiron warriors of Coach Dana X. Bible invade the lair of the Southern Methodist University Mustangs in Dallas November 10, they will be supported by the entire A. and M. cadet corps of some 2,600 leather-lunged, khaki-clad cadets, it has been announced by Col. Chas. J. Nelson, commandant at A. and M.

The corps will make the trip on special trains and will be accompanied by the 100-piece A. and M. band which will assist in rooting for the Aggies during the gridiron tilt.

The corps trip to Dallas this year will be the first to that city since 1926 when the Mustangs' downed the Aggies, 9-7, in one of the most bitterly contested battles in the history of the rivalry of the two teams. Last year the Aggie corps went to Fort Worth for the Aggie-T. C. U. tilt.

Bryan Citizens Aid Progress of City

The railroad track on Bryan Avenue has been removed and work on the small strip of paving down the center of the street has been begun and will soon be completed. Quick action on this work was made possible through the efforts of W. J. Coulter and M. F. Dansby who visited every property owner and with one exception, secured his check for his proportionate cost of the work and these checks were turned over to the city. It is but another tangible evidence of the splendid co-operation of the citizens of Bryan in aiding the development and progress of the city.

Meridian Couple Pass Thru on Way to Valley

Mr. and Mrs. Marion Houstings of Meridian, with their two sons, Fred and George, passed through Bryan today en route by automobile to the "magic valley" country where they will visit relatives and friends until after the Thanksgiving holidays. Mr. and Mrs. Houstings stopped over for a visit of an hour or two in Bryan to investigate Bryan's schools with the intention of perhaps making this city their home later, to educate their two boys at Allen Academy and A. and M. College. They were charmed with what they saw and confessed they had no idea of the splendid opportunity offered the boys of Texas as Allen Academy and A. and M. College.

Changes in Owners Of Motor Bus Line

AUSTIN, Nov. 5.—The Southwest Transportation company has been authorized by the Texas Railroad Commission to purchase from W. E. Nunnelly of Tyler, the Nunnelly East Texas Bus lines, according to Mark Marshall, chief of the motor bus transportation division.

A.-M. Radio Plant Did Its Share of Pioneering in Field of Development

By CURTIS VINSON

Built originally for the use and instruction of engineering students, Station WTAW, radio broadcasting station of the A. & M. College of Texas, first employed the dots and dashes of the old Morse code in titillation of the ether waves.

This was back in 1912 when radioing was considerably younger than it is now. Engineering students at the college constructed the first sending set and since that time students have amplified and maintained the station.

It is of interest to note in these days and times when broadcasting is so universally vogue as to fit all occasions, from the airing of bedtime stories to sporting events, that Station WTAW was the first, in so far as is known, to broadcast a football game. This was in 1919 and the report sent out on the game, played at College Station, was in Morse code. A Texas news-

minute period between 12 and 1 o'clock (noon) daily. Ten minutes of the period will be given over to farm and homemaking talks and ten minutes to questions and answers. There will be no music during the noon period, but musical selections will be broadcast on the Texas Aggie night program, which will be staged one night every week. The A. & M. College Band will be featured occasionally on this program. All Southwest Conference sport events held at College Station will be broadcast over Station WTAW. The proposed program schedule calls for the discussion for farm topics on the noon program three days a week, home demonstration topics one day and other topics of general interest one day.

Staff of WTAW
The staff of Station WTAW includes Dean F. C. Bolton, director; Henry Peterson, program director; and chief announcer; C. P. Sweeney.

paper in a near-by city picked up this report, which it used in preparing a story on the game. Thus was put on the air for the first time a gridiron contest. It is likely that today almost as many fans listen-in to a radio report of athletic contests as attend the games in person.

Radiophone in 1923

Use of the radiophone by the A. & M. station was inaugurated in 1923. Subsequent improvements, including the sound-proofing of a commodious studio last year, have made of Station WTAW today a far different facility for instruction and practical use from that which carried the Morse code messages in 1912.

Credit for the establishment and development of Station WTAW belongs largely to Dean Frank C. Bolton of the school of engineering at A. & M., who, since the inauguration of radio activities at the college in 1912, has been unremitting in his efforts in behalf of the work. At first largely an electrical engineering laboratory facility, the station has grown in use and popularity until it has taken definite place among the stations of Texas and the Southwest.

Wave length of Station WTAW at this time is 483.6 meters, with frequency of 620 kilocycles. New regulations of the Federal Radio Commission have decreed a change in wave length to 267.7 meters, effective Nov. 11, however, with a frequency of 1,120 kilocycles. Effective on that date with the change, WTAW will divide time with Station KUT of the University of Texas.

Noonday Programs

During the last year or so Station WTAW has broadcast regular daily programs at the noon hour and evening programs on occasions also. The daily noon program has included brief talks of general interest. Musical numbers have been broadcast also, including selections at frequent intervals by the A. & M. College Band of 100 pieces.

With the new hook-up in store, Station WTAW will have a two-

ey, operator, and Dutch Dillingham, radio engineer, who is professor of communication engineering at the college.

As has been pointed out, Dean Bolton of the school of engineering of the college has fostered radio work at A. & M. since 1912, when some of the first pioneering work in radio was done at the college by Morse code. The station has been built and maintained under his direction.

Harry Peterson, the program director and chief announcer, is an agricultural graduate of the college of the class of 1926. He served eighteen months as assistant county agricultural agent in Dallas County prior to coming to the college Sept. 1, 1928, to direct the radio progress on the newly created radio fellowship whereby he spends half his time in graduate work in the dairy husbandry department. Mr. Sweeney is an engineering student at A. & M. His home is at Angleton. Miss Mildred Horton, State home demonstration agent of the extension service, A. & M. College of Texas, has general supervision of the homemakers' radio programs, which are prepared by members of her staff. Miss Myrtle Murray, district agent of the home demonstration division program committee.—Reproduced by courtesy of The Dallas News.

Coach "Chuck" Bassett Starts Workout With Squad for Basket Ball Season; 26 Candidates With Six Lettermen

COLLEGE STATION, Nov. 3.—With a squad of 26 candidates, including six lettermen, three squadmen and eight freshmen numeral cagers, reporting for the initial practice of the season Thursday, Coach "Chuck" Bassett is facing the 1928-29 basket ball season with an imposing array of material from which to mold his Texas Aggie cage team.

Of the six lettermen, three will be playing their third year with the Aggies and the other three will be seeking their second letters as members of the varsity quintet. S. J. "Red" Petty of Decatur, stellar forward who will captain the team this year; W. E. Davis of Stephenville and Noah Webster of Texarkana, both forwards, are the three third year men, giving Coach Bassett one of the most experienced group of forwards in the conference this year. Harry Keeton, Fort Worth, a guard; Joe Brown of Alvord, center; and Johnnie Konecny, Bryan, another guard, are the remaining lettermen. All of the men are from last year's team with the exception of Konecny who lettered as a guard on the 1926 quintet. His addition to the team this year is expected to add much defensive strength for in his first season with the Aggies two years ago he won much favorable comment from critics of the Southwest.

The three squadmen are R. J. Blount, Gainesville guard and center on the team last year; T. C. Lockett of Chicago, Ill., diminutive forward; and Roy Varnell of Barry, another guard. All of these men gained considerable experience last season and are expected to prove valuable during the coming year.

Eight numeral men, all but one from what was probably the

strongest freshman team in the Southwest last season, promise to make competition hot from the outset of training, for it is with men from this group that Coach Bassett is expected to bolster the quintet he had last season. The numeral men are C. T. Hoke of Shiro, former all-state center from Houston Heights high school; H. B. Cox, Houston, a forward; E. D. Phillips, McKinney, center; E. K. Martin, Houston, southpaw forward; R. T. Lamb, Houston, guard; E. J. Smith, Port Arthur, guard; R. D. Hadcastle, Houston, forward and T. G. Caudle, Stephenville, a center on the freshman team in 1926-27. These men are expected to be outstanding contenders for varsity berths this season, for as freshmen they composed a team which was defeated only once during the season.

J. A. Cotton, Abilene, and R. C. Bell, Bellville, freshman squadmen playing guard last year, are also listed among the candidates. The remainder of the squad is composed of men who demonstrated marked ability in the intramural basket ball league last season. They are: E. M. Russell, Fort Worth, forward; J. D. Harris, San Antonio, guard; F. Scovell, Dallas, guard; C. D. Kaufman, Fort Worth, guard; L. C. Baker, Dale, guard; E. M. Liem, center, guard; J. C. Tinney, Forestburg, guard; V. C. Pompell, Fort Worth, forward.

The squad held its first workout Friday and will have three practices next week, after which daily workouts will start. Of the 26 candidates Petty, Brown, Davis, Phillips, Martin and Scovell will not be able to practice until the close of the present grid season as all are members of the Aggie eleven.

Bryan Men Off to Texas Conference

The Texas Annual Conference meets Wednesday, Nov. 7 at Lufkin. Bishop Sam R. Hay will preside. Those attending from Bryan are Rev. R. S. Marshall, pastor of the First Methodist church and C. R. Gardner and Hon. Oak McKenzie. Gardner and McKenzie are delegates from the Huntsville district.

Washington Avenue To Be Paved Soon

Workmen started the plowing of Washington Avenue this morning, preparatory to the paving of same. This will complete the last proposal of the paving which the city issued which amounted to some 13,000 yards. In addition to the above paving City Manager Miller states that on Monday morning, November 12th at 10:30 there will be another proposal presented to property owners for additional paving of 8,000 yards. In this proposal there is included Polk Avenue from 24th to 27th Street, 23rd Street from Main to Bryan, 25th Street from Parker Avenue west to Congress and 30th Street from Bryan to Sterling.

Mrs. Alice Ball Passes Away at Family Home

At the close of a long and useful life, Mrs. Alice Ball of this city, passed away at the family home on Baker Avenue, Saturday night, November 4, at 8:20 o'clock, after a lingering illness of many months. Surrounded by loving sons and daughters whose tender care and ministrations to their dear mother during her long and painful illness were like a benediction to her, she fell asleep, like a tired child at the close of the day, and her spirit went home to be with her Saviour. Truly the life of this dear old mother was an example of christian victory over all the ills of this life.

Just Like An Ostrich

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at Roman & Vick. (Adv.)

Coulter Buys the Kernole Property On College Blvd.

Walter Coulter on Saturday purchased the South Side Community Store building and lot on College Boulevard, next to the W. W. Hall Furniture store owned by Mrs. Alma Kernole of Houston. The purchase price was \$1,000. Mr. Coulter at present has no definite plans for the building but will remodel to suit any tenant.

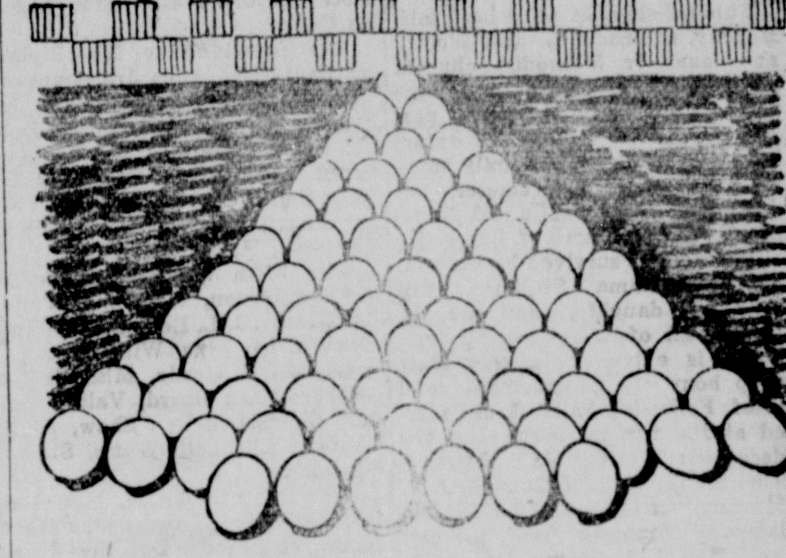

Station. Exquisite white giant chrysanthemums with a background of ferns made a blanket for the casket of rich grey velvet, and a wealth of floral gifts from friends in Bryan, College and surrounding community covered the new made grave in a profusion of beauty, when the last prayer was said, at Alexander cemetery where interment was made.

Sincere and heartfelt sympathy for the bereaved family is extended by a host of friends, who pray that the Great Comforter may bind up the broken hearts and "Give beauty for ashes; the oil of joy for mourning; the garment of Praise for the spirit of heaviness."

Mrs. Mary Alice Ball was born in Titus county, Texas, March 4, 1855, and at the time of her death was 73 years, 7 months and 29 days of age. She was reared at Runge, in Carnes county, and had been a resident of Bryan for the past 28 years. Her good husband passed away many years ago, and Sunday afternoon they laid her beside him in the old Alexander cemetery, in the northern part of Brazos County. To their union ten children were born, seven of whom are still living as follows: W. R. Ball and Charlie Ball of Bryn, Roy Ball of Tabor, Mrs. Lula White, Miss Mary Bell Ball, Mrs. Madamie Martin of Bryan and Mrs. Vera Carleton of College.

Get More Eggs Now!

BIG poultrymen, little poultrymen, are finding that when it comes to getting more eggs, day in and day out, you simply can't beat Purina Poultry Chow.

Purina puts into hens the material from which eggs are made. That's why Purina-fed hens put more eggs in the nest. No mystery about that.

Change to Purina today. Gather more eggs while prices are high.
